When are they planning on going there. They will need access agreements from property owners, won't they? Are you going when they do the fencing, capping etc.?

FYI.

Here are a few maps of the Wilcox Oil Company site at different scales. They show the site and neighborhood of Bristow, OK. I am working with the EPA GIS Support Team to see if we can get more recent photos and more detailed maps.

These maps could help for removal, remedial, community relations, briefings, fact sheets, etc.

Bart, Attached are 3 maps. The one of the boundary and the other two zoomed out to 1000 acres and 2000 acres.

Let me know if there is anything else you need.
